**KEY QUESTIONS TO CONSIDER IN PREPARATION FOR DRAFTING WORKGROUP
RECOMMENDATIONS:**

1. Does the service array **support preferred outcomes** for individuals, families and the system?
2. How does the current service array **align with best practice**?
3. Are there **gaps** in Iowa's core service array for people with Brain Injury? Their families?
4. How can they be addressed?
 - **Short-term**
 - **Long-term**
5. Are there services the workgroup recommends **phasing down or out**?
6. Are there new services that need to be **added** or current service options that the workgroup recommends **expanding**?
7. Given scarce resources, which services, either currently in place or recommended to be in place, should be **prioritized** for implementation?
